

Project Management | Quantity Surveying | Project Performance Audit

Committed to excellence | Driven by passion | Defined by values

ABOUT US

PEGO PROJECTS began operations in 2002 as a partnership between Gontse Kgosiemang and Pheny Nthase. Since then PEGO PROJECTS has become a leading name in the industry, with an established reputation for technical expertise and an excellent client centred service.

Our core services are:

- Project Management
- Quantity Surveying
- Project Performance Audit

These services comply with the requirements of ISO 9001:2008. We have strategic regional alliances that provide a dependable backup of resources to enable us to provide a unique cutting edge service on any project irrespective of size or complexity.

PROJECT MANAGEMENT

Project management is the application of knowledge, skills, tools and techniques to project activities to meet project requirements – The Standard for Project Management of a Project. PEGO PROJECTS offers construction consulting services in the following practice areas, based on the PMBOK Guide which contains the globally recognised standard for the project management profession:

- Business Analysis and Requirements
- Programme Management
- Project Management
- Programme Management Office

Our project leadership style, which ensures harmony and accountability within the team and provides synoptic information to the client concerning project progress and vital decisions required, has earned us a coveted position in the industry. For the client who wants the best value for money PEGO PROJECTS would be the ideal first point of contact since this would give us the opportunity to advise from business planning through to assuring successful project delivery and adherence to objectives.

QUANTITY SURVEYING

We have expertise and depth of experience to provide cost advice on a broad range of projects including:

Building

Infrastructure

Mining

Public Private Partnership

Engineering

SPECIFIC SERVICES INCLUDE:

Financial Feasibility Studies

Budget Estimates

Cost Plans

Contract Advice

Tender Documentation

Bills of Quantities

Tender Evaluation

Post Contract Administration

Final Account

PROJECT PERFORMANCE AUDIT

The service entails carrying out a watching brief on projects or reviewing performance focusing on programme evaluation, risk management and quality management. This is done in order to assure economy, efficiency and effectiveness plus legal compliance, ethical conduct and equity. The objective is to give confidence to stakeholders by reducing project delivery risk, improving transparency and accountability and increasing organisational maturity.

Benefits of project performance review include:

Improved project governance

Capturing lessons learned

Detection of early warning signs

Compliance

Monitoring the efficacy of cost, quality, risk and procurement controls.

The performance review method is flexible and applicable to specific milestones or the entire project cycle.

TEAM

Our team comprises of motivated and highly qualified people who hold the highest industry credentials in project management and quantity surveying.

“Nothing gives me more pleasure than to see project objectives met.”

K. Raboloko

BSc (Hons), PRINCE2 Practitioner

“We apply best practice and recognised standards to our work.”

B. Gatang
